General Contractor: Summit Construction
Square Footage: 129,300 Square Feet
Contact: Scott Walton
Construction Type: New Construction
Construction Contract:
HC Contract: \$2.2 Million
Location: North Canton, Ohio

Hilscher-Clarke was chosen by Summit Construction to be the electrical contractor and design-build a 129,300 square foot hotel with 150 spacious guest suites. Amenities would include: a complimentary cooked-to-order breakfast area, complimentary evening reception, full bar, restaurant, fitness center, indoor pool, two kitchens, and laundry. The hotel also features three large meeting spaces, totalling 6,000 square feet and room for 500 guests.

The electrical scope of work included the installation of fire alarm, generator and ATS, power packs, and light fixtures. We also installed the telecommunications system.

Proven. Reliable. Sensible.
